*Boot volume is measured using VDA standard.

*Drive Range results are based on WLTP's standard test procedure to provide customers with a basis for comparison of the performance of vehicles. No test can simulate all 'real world' driving conditions. Actual on-road electricity consumption will vary due to factors such as traffic conditions, vehicle conditions and load, and how the vehicle is driven. More information at <https://www.ai-ways.eu>

*Panoramic fixed glass roof cannot open or vent.
